

REFILLABLE SWEEPER BRUSHES

The SACEMA Refillable sweeper brush is an environmentally friendly alternative to traditional side brushes for sweeping machines:

- The disc is only purchased once (reused).
- The volume of the spare parts is smaller (transport costs are reduced)
- Less waste due to reusability, the spare parts are quickly inserted from above.

Information

Sweeping material	PPL (Polypropylene 3x2 mm) or Mixed (PPL + steel)
Disc material	HD Polypropylene
