

INDUSTRIAL DESCALER

Industrial Descaler is a synthetic industrial detergent specially formulated for cleaning vehicle wash tunnels and bridges, glass or plastic partitions, metal parts without corrosion protection, sinks, toilets, taps, among others.

Instructions for use:

- Depending on the type of dirt, we can use the descaler pure or diluted in water.
- For regular use, spray directly onto the surface to be cleaned. After applying the descaler, leave to act for 3 to 10 minutes, then rinse with pressurised water.

Extra:

- Do not swallow.
- Keep out of the reach of children.
- In case of contact with eyes, rinse immediately with plenty of water.
- In case of accident consult the toxicological service (915 62 04 20).

Technical characteristics:

- Thick texture.
- Mild aroma.
- Colourless, in contact with sunlight degrades to brown. PH: 13 (basic or alkaline).
- Not flammable or explosive.
- Does not require respiratory protection, although it should be handled with latex protective gloves, avoiding contact with skin and eyes.
